

Vanceva® Color System

Pantone® Matching Guide*

Below are the closest matches of our Vanceva® interlayer system to the Pantone® color system. Find the colored layering of Vanceva that best matches your Pantone color and go to www.vanceva.com to order the sample. If we do not have a match please contact us. Laminate color is influenced by glass and lighting. This match may not be an exact color match. Before specifying a color based on this match, obtain a sample made with the actual glass to be used in your project.

* This list represents Eastman's best approximations of Vanceva glazing colors to the listed Pantone color. They are not meant to be exact color matches. Each coloring system is unique and an exact color match is not possible. Laminate color depends on many factors, including the glass. Always obtain a sample of the final glazing laminate in the project glass system prior to specifying Vanceva colors."

** We don't believe we can obtain an accurate match to this color
