## Designs & Layout

Designs above are shown at a ratio of 4:1 eg. 1200mm x 300mm

All panels are custom made to suit your dimensions

Etched background shown in white, clear design shown in black, may be reversed.

Design can be modified for matching sky lights and side lights

## Types of Glass

If being used as door panels the glass must be "A" grade safety to Australian Standards 1288. eg, toughened or laminated glass.

### Options in toughened glass

5mm, 6mm or 10mm Clear. Slight green tinge in colour

5mm, 6mm or 10mm Low iron [Starphire] A white finish to the etched.

6mm Matelux clear [Acid etched on one face for a completely obscure effect]

### Options In Laminated Glass

6.38mm laminated or 10.38mm laminated in clear or low iron.

Example of colour below

CLEAR GLASS

LOW IRON GLASS

METULEX
